Tanstack Query

Vite

This blog application, named Nexus, is powered by Appwrite for a robust backend. Users can effortlessly create accounts, share posts, like content, and discover others in the Nexus community. The application is built with React Vite for optimal performance, utilizes Tailwind CSS for a sleek design, Next UI for navigation, and TanStack Query for efficient search capabilities. Nexus provides a comprehensive and user-friendly social media experience.

Technical Features :

Appwrite: This application integrates Appwrite, using its robust backend services for efficient user account management, secure authentication, and streamlined data storage. Appwrite forms the core of Nexus, ensuring a secure, responsive, and efficient foundation for a seamless user experience.

Tanstack Query: This application also employs TanStack Query for efficient data fetching. This integration employs efficient retrieval and manipulation of data. With TanStack Query, this project ensures seamless communication with the backend, contributing to a responsive and engaging social media platform.

Crypto Currency Converter

React

RapidAPI

The cryptocurrency converter and news aggregator app utilizes the Alpha Vantage API for seamless currency conversions between cryptocurrencies, providing real-time exchange rates and insights into value changes. Additionally, it offers a curated news feed with headlines and summaries, catering to users tracking crypto trends.

Technical Features :

Real Time Conversions: This application provides instantaneous exchanges between cryptocurrencies using live data from the Alpha Vantage API, ensuring users receive up-to-the-minute conversion results for informed decision-making in the crypto market.

Crypto News Feature: The news functionality aggregates the latest cryptocurrency articles from reputable sources, offering users a curated feed of headlines, summaries, and publication dates. Utilizing real-time updates, users gain insights into the ever-evolving crypto landscape, accessing analyses, regulatory developments, and innovations shaping the industry.
